Beskrivelse

Bath trailer with gender-separated changing and shower. There are a total of 8 baths, 4 at each end of the trailer. This trailer is suitable for construction sites where both sexes must have the opportunity to change

clothes separately.

The trailer has an entrance from each end for women and men respectively. At each end of the bath trailer there are 4 shower cabins with a bench and hooks for hanging clothes, 2 washbasins and a radiator. The radiator means that the trailer can be used all year round, regardless of the weather outside.

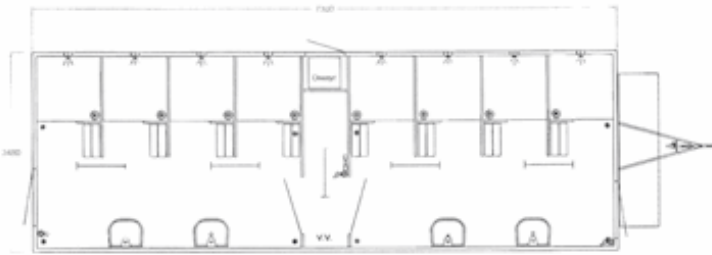

The 2 changing rooms are separated by a double door. In between there is an oil boiler for heating water.

The trailer is in good condition and ready for use.
